

10 CYBERSECURITY TIPS

1. Do not open attachments or click on links from unknown email addresses.
2. Always hover over a link to see where it leads to, before you visit that site. Even when you think you trust a link, **DO NOT click** on it within your email instead visit your browser and type out the last known web address.
3. If a familiar email address sends you an unsolicited attachment that looks suspicious, contact them through an alternative means to confirm that the attachment is safe to be opened.
4. **ALWAYS** protect all your passwords. Practice safe password protection a password manager is good. I recommend **Dashlane** there are other good password managers too.
5. Whenever you are in a public gathering always turn off your **NFC** in your mobile devices as it can be used to access files from your devices. Applications such as **WhatsApp and xender** runs on Web Internet Enable services. So **ALWAYS TURN IT OFF**
6. When watching **YouTube** videos **DO NOT "PAUSE, HOVER CURSOR, REWIND AND FORWARD"** especially if you are using your work system as Payloading can be introduced by hackers through that means to access your device. Simply Download and watch
7. **Social Engineering!** Be careful with the amount of information you share online on social media especially. BE careful not to

expose your work Identity card and when you are being question about your work and personal life by strangers online and offline.

8. **STOP! STOP Downloading** free software's especially **ANTIVIRUS**. Because the punishment for doing so is that it will eat up the function and processes of your system thereby, making the computer system vulnerable to attack.
9. When signing up with any platform online "**DO NOT**" use **Facebook, LinkedIn, Google** or any other means of signing in. Simply **create an account** with your email and any password generated by you.
10. **HAVE that Conscientiousness** that someone is always watching you even if you may not know who and where. Always engage in Continues Service Improvement **CSI training**.
